

The FCC should NOT implement
any proposal that lessens
Indiana's Telephone Privacy law
protections.

Indiana's Telephone Privacy law
has greatly decreased the number
of irritating sales solicitation calls I
receive.

Before Indiana's law, it was not
uncommon to receive 3-4 calls
per evening. Even Sunday mornings
or late evenings were not sacred.

It is VERY important to me that
Indiana's current law remain in place.

Please do NOT supercede it!
